To Whom It May Concern,

I am pleased to write this letter of recommendation for Jennifer Dudley of Hope70Photography. Since 2024, I have had the privilege of working with Jennifer as she has served as our school's sports photographer. She goes above and beyond while demonstrating an exceptional ability to capture the energy, emotion, and spirit of our athletic events, all while maintaining the highest standards of professionalism and creativity and taking it one step further to add her personal thoughtfulness.

Jennifer has demonstrated technical skills with the camera, but also has an innate ability to anticipate critical moments in each contest. Her images perfectly capture the intensity and excitement of our teams. Whether photographing a fast-paced soccer game, an intense basketball rivalry, or an extensive track and field meet, she captures both the action and the emotion with remarkable precision. Our student-athletes and coaches love seeing her show up to our events because they know that she is going to get some great shots of them doing what they love. She is reliable, punctual, and dedicated to her craft and to the individuals that she has come to know through her time with us. Her love for her work is evident through the grace with which she works every event. to me

Coming from a mascot background, and meeting tons of media teams, media personalities are a wild card on what you might expect, Hope70 always has a smile on their face and is right there in the action interacting with people and also getting awesome shots within the chaos,
A race track can be a loud, fast, and dangerous environment and you handled every shot with professionalism and with an energy that all can see!, You've got a great mission (read through the website), and a great head on your shoulders!, So if you're ever looking for a photographer with a great set of morals, a sniper for good car shots, or just to see a giant smile and see someone who genuinely enjoys their job, hope70 comes highly recommended!

To Whom It May Concern,

March 4th, 2026

I am writing this letter in support of Ms. Jennifer Dudley in recognition of her outstanding support of Henry E. Lackey High School the last several years. It has been my pleasure to know Ms. Dudley for the past three years and has been my distinct privilege to be able to work with her directly in my capacity as Athletic Director during that time. I have witnessed her generosity in many capacities through her help with service-learning projects run by multiple organizations in our building but more importantly she has utilized her photography company to highlight and capture the special moments for our students and their families. I believe that she would be an excellent candidate for an accredited media organization such as yourself.

Ms. Dudley is very meticulous when it comes to her profession. She is a leader that demonstrates great commitment to our entire school, not just the organizations/teams that I am involved with. If there is an event taking place at Lackey, regardless of what group is running it, Ms. Dudley is someone that is routinely available to photograph it. She is a distinguished leader and deserves all of the accolades that come with the commitment that she has demonstrated over the years. We are lucky to have her and the same would be true if she were hired by your organization.

In closing, I cannot say enough good things about Ms. Dudley and her commitment to our students and school community. Her ability to work with others, communicate effectively, and tireless work ethic make her an extremely qualified candidate for your position. The best thing about Ms. Dudley is that she treats all of the kids at our school as if they were her own and I am confident that she would bring that family value to any place of employment. Please consider my strong and sincere endorsement of her.

Sincerely,

To Whom It May Concern,

It is an absolute pleasure to recommend Hope70 as a race photographer. While her photography speaks for itself, what truly sets her apart is the heart she pours into every single race weekend and every relationship she builds along the way.

Hope has become so much more than our photographer—she has become family. At the track, she’s someone we look forward to seeing, someone who celebrates our victories, encourages us through the tough weekends, and genuinely cares about every racer and family she works with. That kind of dedication can’t be taught; it’s simply who she is.

Her talent behind the camera is nothing short of incredible. She doesn’t just capture race cars—she captures the emotions, the memories, and the moments that make this sport so special. Whether it’s the intensity at the starting line, the excitement of a win, the determination after a tough pass, or the candid moments in the pits with family and crew members, Hope has an amazing eye for preserving memories that we’ll cherish forever.

One of the things we appreciate most is how well she listens to her clients. She genuinely wants to know what each racer is looking for and goes above and beyond to make it happen. Instead of taking the same photos over and over, she constantly looks for new perspectives and creative angles. She’s always moving around the track and pits to capture unique shots that tell the complete story of a race day, not just the few seconds spent on the starting line.

Her professionalism, creativity, reliability, and passion for racing shine through in every gallery she delivers. You can tell she loves what she does, and that love is reflected in the quality of her work and the relationships she has built within the racing community.

If you’re looking for someone who will not only provide stunning photographs but also become a valued part of your racing family, I cannot recommend Hope70 highly enough. She is truly one of a kind, and we are incredibly grateful for everything she has done to preserve the memories of our racing journey.

Sincerely- Lexxi Hubbell
